**About E3 Metals Corp.**

**E3 Metals is a lithium development company with 6.7 million tonnes lithium carbonate equivalent (LCE) inferred mineral resources<sup>1</sup> in Alberta. Through the scale up of its proprietary ion exchange direct lithium extraction process, E3 plans to quickly move towards the production of high purity, battery grade, lithium products.**

**E3 Metals combines a significant resource and innovative technology solutions that have the potential to deliver lithium to market in one of the best jurisdictions in the world. The development of this lithium resource through brine production is a well-understood venture in Alberta, where this brine is currently being produced to surface through extensive oil and gas development.
