CALGARY, AB, August 16, 2021 /CNW/ - E3 METALS CORP. (TSXV: ETMC) (FSE: OU7A) (OTC: EEMMF) (the "Company" or "E3 Metals"), an emerging lithium developer and leading direct lithium extraction ("DLE") technology innovator, is pleased to announce that the Company has received approval to graduate to the Tier 1 of the TSX Venture Exchange ("TSXV").

By graduating to the TSXV's top tier under the Mining industry segment, E3 Metals will benefit from improved service standards, reduced compliance obligations and increased access to institutional investors. The TSXV classifies issuers into different tiers based on certain standards including historical financial performance, stage of development and financial resources, with Tier 1 being the premier tier and reserved for the TSXV's most advanced issuers with the most significant financial resources.

"We are pleased to become a Tier 1 issuer," commented E3 Metals' CEO, Chris Doornbos. "This graduation is yet another milestone for us and a signal to the market of how far we have come."

"As we continue our growth plans this year it is important for us to remain committed to ensuring our visibility as a publicly traded company continues to enhance. We believe the graduation will provide us with greater access to investors and generate additional awareness," Chris Doornbos added.

About E3 Metals Corp.

E3 Metals is a lithium development company with 7.0 million tonnes of lithium carbonate equivalent (LCE) inferred mineral resources\(^1\) in Alberta and an NPV8% on its Clearwater Lithium Project of USD 1.1 Billion with a 32% IRR pre-tax and USD 820 Million with a 27% IRR after-tax\(^1\). Through the successful scale up its DLE technology towards commercialization, E3 Metals' goal is to produce high purity, battery grade, lithium products. With a significant lithium resource and innovative technology solutions, E3 Metals has the potential to deliver lithium to market from one of the best jurisdictions in the world. E3 Metals also continues to work with partners at the University of Alberta and at GreenCentre Canada.

**Forward-Looking and Cautionary Statements**
This news release includes certain forward-looking statements as well as management’s objectives, strategies, beliefs and intentions. Forward looking statements are frequently identified by such words as "may", "will", "plan", "expect", "anticipate", "estimate", "intend" and similar words referring to future events and results. Forward-looking statements are based on the current opinions and expectations of management. All forward-looking information is inherently uncertain and subject to a variety of assumptions, risks and uncertainties, including the speculative nature of mineral exploration and development, fluctuating commodity prices, the effectiveness and feasibility of emerging lithium extraction technologies which have not yet been tested or proven on a commercial scale or on the Company's brine, competitive risks and the availability of financing, as described in more detail in our recent securities filings available at www.sedar.com. Actual events or results may differ materially from those projected in the forward-looking statements and we caution against placing undue reliance thereon. We assume no obligation to revise or update these forward-looking statements except as required by applicable law.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
